See next page for continuation of table.

¹Rate on new issues within period; bank-discount basis.

²Yields on the more actively traded issues adjusted to constant maturities by the Department of the Treasury.

³Effective rate (in the primary market) on conventional mortgages, reflecting fees and charges as well as contract rate and assuming, on the average, repayment at end of 10 years. Rates beginning January 1973 not strictly comparable with prior rates.

⁴Bank-discount basis, prior to November 1979, data are for 4-6 months paper. Series no longer published by Federal Reserve (FR). See FR release H.15 Selected Interest Rates dated May 12, 1997.

⁵For monthly data, high and low for the period. Prime rate for 1929-33 and 1947-48 are ranges of the rate in effect during the period.

⁶ Since July 19, 1975, the daily effective rate is an average of the rates on a given day weighted by the volume of transactions at these rates. Prior to that date, the daily effective rate was the rate considered most representative of the day's transactions, usually the one at which most transactions occurred.

7 From October 30, 1942, to April 24, 1946, a preferential rate of 0.50 percent was in effect for advances secured by Government securities maturing in 1 year or less.
